

FIT21 is a comprehensive market structure bill that will protect consumers, ensure crypto companies have robust rules, create clarity for job creators and blockchain builders, and ensure American leadership.

**Congress can't afford to wait
- the jobs and innovation of today and tomorrow are at stake.**

(FIT21) Financial Innovation for the 21st Century Act - H.R. 4763

CONSUMER PROTECTION:

Ensures customers are protected by high standards for transparency, disclosure, segregation, protection of assets, and other measures.

ROBUST RULES:

Establishes registration and market rules for crypto companies that provide access to digital assets.

COMPLIANCE CLARITY:

Gives innovators and builders clear rules and the tools to comply.

AMERICAN INNOVATION:

Provides a comprehensive solution that will prevent companies and investors from moving overseas.

WHY IT'S URGENT

80% of Americans think the global financial system unfairly favors powerful interests.

84% of Americans agree the financial system needs changes or complete overhaul.

2% of web3 developers are leaving the U.S. every year due to lack of regulatory clarity.

4 million developer and non-technical jobs in blockchain are at risk.

83% of G20 countries are ahead in crypto rules, while the U.S. lags.

250K+ individuals and counting are rallying for crypto's U.S. future.

CRYPTO IN THE U.S. BY THE NUMBERS:

52 MILLION CRYPTO OWNERS.

70% of crypto owners in the U.S. have an income less than \$100k

Crypto doesn't choose sides:

20% of U.S. adults
22% Dem. | 18% Rep. | 22% Ind.

We're all invested in the future.

Crypto will create 4M jobs by 2030
